M-Rozell

#### **CAREER OBJECTIVE**

Ambitous critical thinker with a passion for scalable web applications and working across the full stack, who plans to use these abilities in a web design role that pushes the development of my skills.

#### **ABOUT ME**

I am a designer, a thinker, a team player, a leader. In my previous career, I helped restaurants, bars, nightclubs, and music venues become better and more profitable. Excellence in guest experience and client satisfaction required strict attention to detail, something I excel in. With marketing and branding, whether in-house or on social media, I helped foster identity and purpose for the businesses I worked with. Now, I want to do just that by utilizing my design skills in web development. With a solid understanding of HTML, CSS, JavaScript, and ReactJS, I am eager to put everything that I have learned together with an innovative company.
